

It's time for change! Let's reboot and raise the bar.

I've lived in Orange for 34 years and own a home near Grijalva Park. I am a small business owner, city planner, graduate of Leadership Orange, past President of the Orange Community Historical Society, and I've served you nearly twelve years on the Planning Commission and Design Review Committee.

My top priority is to keep Orange safe and feeling secure. My vision includes expanding business, growing the city responsibly, reducing traffic, improving code enforcement, and addressing our open space deficit and aging infrastructure. I enjoy solving problems. I'm fiscally responsible, and will

protect our neighborhoods and quality of life. High density has its place, not within single-family neighborhoods.

I believe in a higher calling and doing what's right. I'll rely on facts, fairness, excellence, community input, and move the city we all love forward.

Orange stands at a crossroads. What is your hope and vision for the future? If you want change, no obligations to outside influences that hold us back, I humbly ask for your vote.
